Summary

Full Stack Engineer with over 2 years of experience in developing and maintaining web applications, specializing in JavaScript, HTML, CSS, and TypeScript. Demonstrated expertise in Angular, ExpressJs, and GraphQL, contributing to the development of scalable, high-performance solutions.

Skills

Programming Languages: JavaScript, TypeScript, SQL, Python, HTML5, Css, Scss
Framework: Angular, ExpressJs, GraphQL
Database: MongoDB, PostgreSQL
Version Control: GitHub, GitLab, Git
Ui/Ux: Figma, Photoshop, Visily

Education

Bachelor's in Computer Application, June 2019 - June 2022,

St Aloysius Autonomous Mangalore.

Professional Experience

Associate Software Engineer|Pace Wisdom Solution|September 2022 – Present

- Directed end-to-end feature development for a Fintech application, ensuring seamless integration of front-end and back-end components, and enhancing system performance.
- Guided cross-functional teams in developing secure and scalable solutions for a Health service, with a focus on privacy and data security protocols.
- Designed and maintained relational databases, significantly improving data integrity and accessibility.
- Conducted regular code reviews and automated testing, resulting in a notable reduction in security vulnerabilities and an enhancement in code quality.
- Optimized performance and user experience by implementing efficient algorithms, resulting in improved application load times and enhanced user satisfaction.

Internship | Pace Wisdom Solution | June 2022 - September 2022

- Designed front-end applications with responsive designs using custom css and bootstrap.
- Understanding the development lifecycle and architecting the application.
- Collaborated with senior software engineers to design and develop new features for web applications.
- Participated in code reviews and contributed to the implementation of best practices for software development.

Project

Heaps.ai | Pace Wisdom Solution

- Enhanced data security by optimizing backend code and implementing robust SQL queries, ensuring compliance with industry standards and regulations.
- Implemented automated WhatsApp text notifications using cronjob tasks, improving communication and engagement with users.
- Leveraged Angular for Front-end development and Node.js for Backend, facilitating seamless integration and efficient data processing.
- Played a pivotal role in performance enhancement initiatives, optimizing system efficiency and responsiveness for improved user experience.

Pangaeax | Pace Wisdom Solution

- Designed responsive layout for optimal UX, ensuring compatibility across devices.
- Integrated real-time data updates with Angular's reactive programming for dynamic user interactions.
- Utilized Angular services for seamless API communication, enhancing data retrieval efficiency.

Samhita | Pace Wisdom Solution

- Developed parent project "Samhita" with 2 Feature module Credit Guarantee and Pre-Credit Score, demonstrating project management skills and leadership.
- Transformed UI into seamless design using Angular, enhancing user experience and visual appeal.
- Utilized Angular services to interact with the back-end API, ensuring smooth data flow and application functionality.

MMJ STORE | Mangalore Meri Jaan | Present

- Developed scalable web applications using Angular, Node.js, and PostgreSQL.
- Implemented custom features tailored to project specifications, ensuring flexibility and adaptability.
- Designed and implemented a user-friendly admin section for efficient content management.
